The Absolute Money of the Green

The Democrats are in favor of repealing the resumption act, of taxing the national bonds, of paying custom times in green-backs, of issuing and putting in circulation an amount of greenbacks adequate to all the wants, necessities, and demands of the people, of making the bonds originally ray-able in greenbacks (and which the Republicans so changed as to make them payable in gold) still to be paid in greenbacks, of remonetizing silver-in a word, the Democrats are in favor of every needed reform. But they are not in favor of absolute, irre-

deemable, perpetual paper-money.

A greenback is good, because the Government promises to pay it. A nationalbank note is good, because the bank promises to pay it. But no one promises to pay or redeem the absolute paper-money. How will one of these notes read? Of course there is no promise to pay. It will simply stamp that as a piece of paper will be stamped \$5, or \$10, or \$100, just as gold is stamped \$5, or \$10, or \$100. Or \$100. ise to pay by the Government, Why? Because gold is absolute money-so recognized the world over. It is not to be re-deemed at all, for it is money. Now, issue two thousand millions of absolute papermoney—call it money—who will take it? It will be upon a par with Confederate money. No better, and not as good as Confederate money was during the war, because there was a promise to pay-a promise to redeem -- on the face of every Confederate note. Absolute money made of paper ! What an idea! No one bound for it; representing nothing; irredeemable ! What stuff! And this is a plank in every Greenback platform.

The Democrats are the true and honest Greenbackers, and the reason money is so scarce is because the Democrats have not since 1860 been in power. Put them in power, and if they don't do better than the Republicans have done, then hold them responsible. - Greenbrier Independent.

Meal-Tickets...The Law Provides Panishment for Issuing Such Debased

Judge Dillon yesterday delivered an opinion in the matter of the meal-tickets issued to employes of the St. Louis and Cairo Railroad Company in lieu of cash for wages. It will be remembered that District-At-

torney Bliss filed information at the October term of the District Court last year to the effect that F. E. Canda and A. D. Hutchins, controlling the Cairo and St. Louis railroad, had been in the habit of issuing the following certificate in payment of wages : "This ticket is good for twenty-five cents.

pavable only at the time and when all the conditions upon the back hereof have been complied with. "General Manager." The reverse read as follows:

"October, 1877 .- This ticket is only to be used by an employe of this company for meals and lodging, and the person receiving it does so with the understanding that the company will refuse payment if used for any other purpose, and will only make payments when presented therefor at the office of the company in St. Louis when the rolls | The time will come when this will be reckof the company are being paid for the month named above."

The foregoing certificate was claimed to be in violation of the following United has become the source of so many useful and States stature :

WHO OWN THE NATIONAL BANKS ?- Who would be cheated if there were to be a combined attack upon the national banks? No doubt a large part of the bank stocks of the country are held by persons who are wellto-do. But this is by no means universally the case. The striking facts brought out by Mr. Mudge at Lynn the other night are exactly in point. In regard to the ownership of the shares in the State National Bank of this city, the capital of the bank is two millions-20,000 shares. There are 1,031 shareholders, so that the average holding is less than twenty shares. Of the whole number of holders 214 are either corporate or individual three eighths of the entire capital—divided thus: 30 savings banks have 2,786 shares; 15 charitable societies own 578 shares; and 113 trustees and guardians hold in trust 3,199 shares.
